BACTERIAL PATHOGENESIS

POSTDOCTORAL FELLOW position is available immediately to join the collaborative research group of Dr. Jeffrey D. Cirillo studying tuberculosis pathogenesis. Selected individual will be primarily responsible for conducting independent research on mycobacterial pathogens and publication of results. Research will emphasize the molecular, biochemical, cell biological, live-animal molecular imaging and immunological characterization of virulence determinants in mycobacteria and their interactions with the host in mice and guinea pig virulence models. Ph.D. required and a record of productive experience in molecular biology of bacterial pathogens preferred. Send curriculum vitae and names and addresses of three references postmarked by November 15, 2009 (or until a suitable candidate is found), to Dr. Jeffrey D. Cirillo, Dept. Microbial & Molecular Pathogenesis, Texas A&M Health Science Center, MS 1114, 467 Reynolds Medical Bldg., College Station, TX 77843-1114. FAX: 979-845-3479; email: jdcirillo@medicine.tamhsc.edu. Texas A&M University System Health Science Center is an affirmative action/equal opportunity employer and encourages applications from women and minorities. Contact: Dr. Cirillo, Telephone: 979-458-0778 for additional information.
