

**Assistant/Associate Professor Department of
Microbiology and Immunology University of
Oklahoma Health Sciences Center**

The Department of Microbiology and Immunology at the University of Oklahoma Health Sciences Center invites applications for a tenure-track faculty position at the Assistant or Associate Professor level. Areas of interest include, but are not limited to, host-microbe interactions, immunology, infectious diseases, and the infectious or immunological basis of cancer. Requirements include a Ph.D. and/or M.D., productive postdoctoral experience and the ability to develop and sustain a strong independent research program. Applicants for appointment as Associate Professor must have an established record of independent publications and funding. The successful applicant will also be expected to contribute to graduate and medical school teaching activities.

The successful applicant will receive a start-up package that includes a highly competitive salary, generous funds and ample laboratory space. She/he will have access to well-equipped animal and BSL3 facilities as well as core laboratories with state-of-the-art instrumentation for genomics, transcriptomics, proteomics, flow cytometry, and microscopy. Applicants will join a department of 15 primary tenured or tenure-track faculty members with more than 40 extramural grants and contracts totaling \$10 million. The faculty's research interests include host-pathogen interactions, biochemical basis for pathogenesis, vaccine development, tumor immunology, and autoimmunity. For additional information about the Department, the College of Medicine, and the Health Sciences Center please visit our website <http://www.oumedicine.com/mj>.

"The Scientist" named The University of Oklahoma Health Sciences Center as one of the top 10 places to work in academia. The University is located in Oklahoma City, which is consistently ranked as one of the top cities to live in the United States. Oklahoma City and the surrounding communities offer a family friendly, affordable cost of living in a vibrant and exciting metropolitan area. The city has quality schools, beautiful outdoor recreational amenities, excellent cultural and artistic venues, and professional major and minor league sports.

Interested candidates should submit a single PDF file containing curriculum vitae, a 1-2 page description of research interests, and the names and contact information for three references to
