Faculty Positions in Microbial Sciences

The Department of Molecular Biology and Microbiology at Tufts University School of Medicine (www.tufts.edu/med/microbiology/index.html) is undergoing a major expansion and adding tenure-track faculty positions in the area of microbial sciences. This announcement is for positions at the **Associate and Full Professor levels**. The Department is seeking candidates who can build on its core strengths in microbial genetics, pathogenesis, physiology, cell and structural biology. We are interested in candidates taking innovative approaches to problems in prokaryotic or eukaryotic microbial sciences including, but not limited to: analyses of microbial physiology, gene regulation and metabolism; interactions of pathogens with host cells or in model hosts; and analysis of complex microbial communities. We offer generous support for transferring established research teams into newly renovated laboratory space and a highly collaborative environment offering opportunities for both basic and translational research.

Applicants should hold a Ph.D. and/or M.D. degree, have a track record of establishing and mentoring successful research programs and a demonstrated ability to obtain funding in support of their research groups. Successful candidates will be expected to build on their outstanding research programs, as well as contribute to graduate and medical education. Please submit electronic applications including a CV, a statement of research interests and the names and contact information of at least three references to <https://academicjobsonline.org/ajo/jobs/735>. Inquiries, but not application materials, may be directed to: MBMFacultyRecruitment@tufts.edu.

Tufts University is an Affirmative Action/Equal Opportunity employer. We are committed to increasing the diversity of our faculty. Applications from women and members of underrepresented groups are strongly encouraged.
