

**Faculty Positions in Bacterial Pathogenesis**  
**Department of Microbiology and Immunology**  
**Indiana University School of Medicine**  
[www.iupui.edu/~micro/](http://www.iupui.edu/~micro/)

The Department of Microbiology and Immunology is seeking outstanding candidates with research interests in bacterial pathogenesis and bacteria-host interactions for tenure track faculty appointments at Indiana University School of Medicine. Applicants are expected to establish independent research programs, secure external grant support, and participate in teaching graduate and medical students. Candidates should hold a Ph.D. or M.D./Ph.D. and demonstrate a record of productive and high quality research. Academic credentials and existing extramural grant support will determine faculty rank.

Highly competitive start-up packages are available including new laboratory space. The scientific environment at the School of Medicine is highly interactive and productive with ties on campus to other Basic Science and Clinical Departments, and Research Centers including those focused on HIV, immunobiology, cancer and allergic diseases.

Interested candidates should send a single PDF file containing curriculum vitae, description of research goals, and the names and contact information for three references to:
